

**SEMINARIO**  
**Departamentos de Física Teórica I y II**  
**Universidad Complutense de Madrid**

**CONFERENCIANTE:** Robert Garisto

Editor, Physical Review Letters

**TITULO:** Secrets of PRL

**LUGAR:** FACULTAD DE CIENCIAS FÍSICAS UCM

**DÍA:** 30 de junio, 2014 (Lunes)

**HORA:** 14:30

**AULA:** Sala de Grados

**ABSTRACT:**

I will give an insider's view of Physical Review Letters (PRL). I'll describe how the review process works and how things have changed since we reaffirmed standards last year. I'll explain how we pick our highlighted papers. I'll show some illuminating statistics and discuss some aspects of metric you probably don't know. I'll flash some interesting and illustrative correspondence. And I'll give you some advice on how to succeed with your PRL submissions.
